raising the standard

15 Y E A R
ANNIVERSARY

OUR MISSION

...is to raise the standard of security services
by offering transparency, honesty and genuine
peace of mind.

WHO WE ARE AND WHAT WE DO

Ensign Security was established in 2004 by Nigel Williams with the objective of providing an honest and reliable security service that clients can trust. As a result, we are proud to have clients that have stayed with us for 15 years as well as expanding our client and service portfolio year on year.

We are proud to have a low turnover of staff due largely to looking after our workers. By valuing our staff and providing exceptional working conditions and head office support & training, our clients get to know and trust the same regular faces for many years.

In 2009 the Ensign Care division was established to meet the needs of our public sector clients and to provide specially trained Dementia Support Workers in hospitals and care homes throughout the UK. www.ensigncare.co.uk

KEY HOLDING

- Response to site within 20 minutes
- Experienced guards to investigate alarms
- Comprehensive reports and actions

Relieve your staff from the risk, inconvenience, delay and danger from attending potential break-ins. We offer a complete key holding and rapid response service to alarm activations.

We attend quickly, diagnose the problem, reset the alarm, liaise with emergency services and provide comprehensive reports of the situation and the action taken. You can be assured that we will thoroughly investigate any activation and take actions to secure your property.

LOCK & UNLOCK

You set a specific time you want your building unlocked and without fail, we will be there every day of the year to carry out your requests.

This includes opening carpark gates, unlocking barriers, unsetting alarms, turning on lights and heating and any other needs.

The same goes for locking up at night. We check the whole building is secure including windows and doors, check lights are turned off, no water running, cleaning done, then set the alarm and secure the building.

We have backup procedures to ensure your building is open on time, every day without fail.

MANNED GUARDING

Statistics demonstrate that one of the most effective crime deterrents for a property is to have a trained, experienced guard based onsite who is able to react and respond immediately to any situation.

We can provide static guards for a variety of solutions, from the 24-hour presence, nights/weekends presence, lock & unlock service, reception security and guardhouse security.

All our sites receive electronic tags so our guards patrol where you need protecting and we provide evidence of our visits in the form of monthly reports.

MOBILE PATROLS

Protect your business with our effective security patrol service. 365 days a year, our trained security officers will visit your premises at random intervals and physically check doors and windows and act as a deterrent to would-be intruders and trespassers.

We are flexible and accommodating to your specific requirements of when and how you want patrols to happen.

All our vehicles are fitted with GPS tracking devices, enabling us to react quickly and deploy the nearest patrol vehicle.

SCHOOL SECURITY

As one of the largest providers of school security in Yorkshire for over 15 years, we know what our clients need. We understand youth trespassing, vandalism, fire alarms and the vast number of windows that could be open. We are aware of the current crime patterns and work with local policing to reduce the risk of break ins.

We are flexible and accommodating. We can patrol at a time that you need, remove trespassers and check windows and doors are secure.

We can provide locking up services when caretakers are on holiday and respond to alarm activation to ensure school employees are not put in any danger or inconvenience.

A photograph of a modern school building. The word 'SCHOOL' is written in large, dark, 3D letters on the light-colored curved facade. To the right is a large glass window reflecting the sky. The sky is blue with some light clouds. The foreground shows a paved area and some greenery.

SCHOOL

VOID PROPERTIES

There are many potential risks associated with premises being empty. We have a range of Vacant Property Security Services to reduce these risks.

In addition to the risk of fire, theft and criminal damage, the value of the property could be affected significantly through environmental deterioration or if illegally occupied by intruders.

We offer keyholding, alarm response, regular patrol visits, regular utility readings and boarding services.

RECEPTION GUARDING

- Professional
- Polite, smart & reliable
- Regular friendly face

Choose from our staff the right person for your reception to welcome your staff and direct visitors. Have the confidence in our service that without fail we have opened your building on time, turned on the lights, made sure the heating is on and will welcome staff with a friendly smile.

All our staff are professionally attired and trained with your specific requirements in mind.

CCTV

- Mobile temporary units
- Installations & monitoring

We use the latest technology and wireless networking to protect temporary sites without the need for wires and a broadband internet connection.

Where we assess the site risk to be low, we are able to offer a cost-effective solution of mobile CCTV pods and monitoring. Cameras can watch many angles at once, every minute of the day or night and record vital evidence for prosecution.

We also provide the latest CCTV installations for permanent sites with 24 hour recording and monitoring.
